TEN TRADE TECHNOLOGY

HERE CREATIVITY & TECHNOLOGY MEET TOGETHER.....

Subject : Ten Trade Inventory Software Proposal

Who We Are

Creativity & Guarantee of Quality run together with Ten Trade Technology. Ten Trade Technology is a web design, Software development and networking oriented company based in Bangladesh. It is an offshore outsourcing company offering professional and creative services in Web design, development and Customized Enterprise Resource software. Also provide computer Graphics work for Web publishing, E-Commerce and Networking.

Triple T has the Management expertise's was served for more then decade in this sector. It started its goal to run and strived successfully establish a distinguished place with the target for giving maximum effort with their "Quality of Work" and "Commitment of Word" to its clients. Our team consists of experienced Software developer, web designers, web developers and graphic designers. We have professional work experience in the area of E-Commerce, web based program, customized Software and networking. It has extensive Enterprise Resource software named Electrum Office which includes Accounts, inventory, Payroll, Sales, Budgeting, HRM&PMIS, Leave Automation, Requisition Automation, CHMS, FSMS and Internal Mail system.

World technologies are running to the new era of achievement. The software can provide fast and finest solution rather than much paper works. This can save time, money as well as load on brain.

Goal in Ten Trade Technology is to create a broad market to provide, served and maintain quality and commitment for its clients, considering the view that can meet local software with high, local and International standard. It would promote advance scientific research in Information Technology; solve employment problem by providing universally available, high quality, affordable communication and information technology services to create a brand worldwide. All in all This Ten Trade Technology is the name that has appeared in IT world not only to increase profitability but also with the vision for economic development in local Area.

Objectives of Ten Trade Payroll

Extensive Enterprise Resource software - Electrum Office, widely used and thoroughly approved software developed by the latest technology. We are ready to offer this very popular application with necessary customization. It's power, ability, easy to use, intelligence, speed off operation and error detection capability is unparalleled.

Technical Analysis

Advantages

- * Wide Area network between Head Office & Branch office
- * Local Area network between Departments
- * High Security
- * Centralized Database System
- * Graphical Representation

Why Use Ten Trade Payroll?

Centralized Database System

In Centralized system all sorts of customer information as well as their transaction histories or ledgers are stored in the Central Server at Data Center. Branches having proper authorization procedures log on to this central server through remote networking media like remote networking and make business transactions as well as fetch reports of various kinds.

Network Compatibility

Ten Trade Inventory Software is Compatible with Wide Area network between Head Office & Branch office (Customized if required and price need discussions) and Local Area network between Departments. Ten Trade Inventory is developed to provide maximum support to Store/Inventory Department For Managing its Store Ledger and store functions. This Inventory software will help to take managerial decisions to the key persons from the reports.

Nature Of Work

Ten Trade Inventory is generated with the thought keeping in mind; To satisfy the informative report of overall store keeping procedure of any factory or office.

The user will able to manage, 'The unlimited Item Head' – 'The more transactions required'. For example : A Parker Fountain Pen is classified as,

Accessories (01) => Stationary (0106) => Office Stationary (010603) => Pen (010603987) => Fountain Pen Parker (010603987-5678).

Item code is shown in bracket. Here the item code is generated according to Item Head->Sub Head-> Co-sub Head->Name.

The transactions consist of date wise raw data of in and out information to overall inventory management.

Fastest and effective Reports and Search Ability

3T Inventory Includes various kind of report like Daily and Periodic inward, Outward, Current Stock etc. There are also search forms to find different kind of data within List of Items information's.

Editing Records

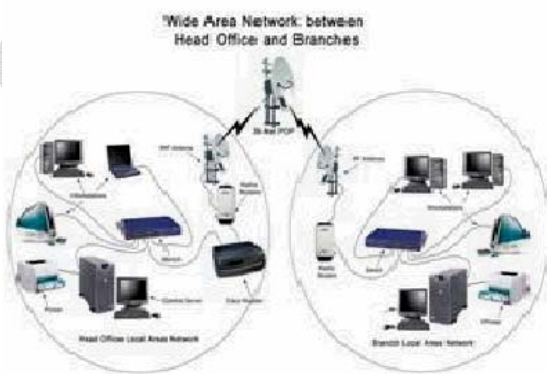

Ten Trade Inventory has various edit forms to manage mistakes in voucher entry. It has some other features to manage the database easily which make this software unique.

Operating level

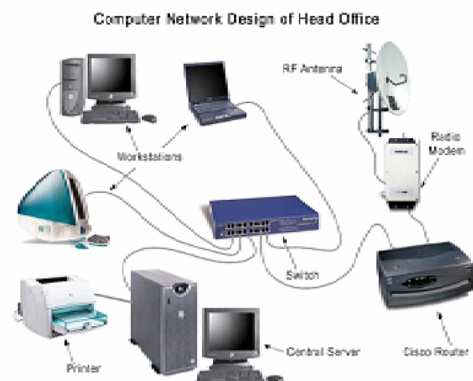

Ten Trade Inventory software has Four types of User Level.

- 1.) Owner or Top Management level.
- 2.) Administrator Level.
- 3.) Time Section Operator.
- 4.) Production Operator

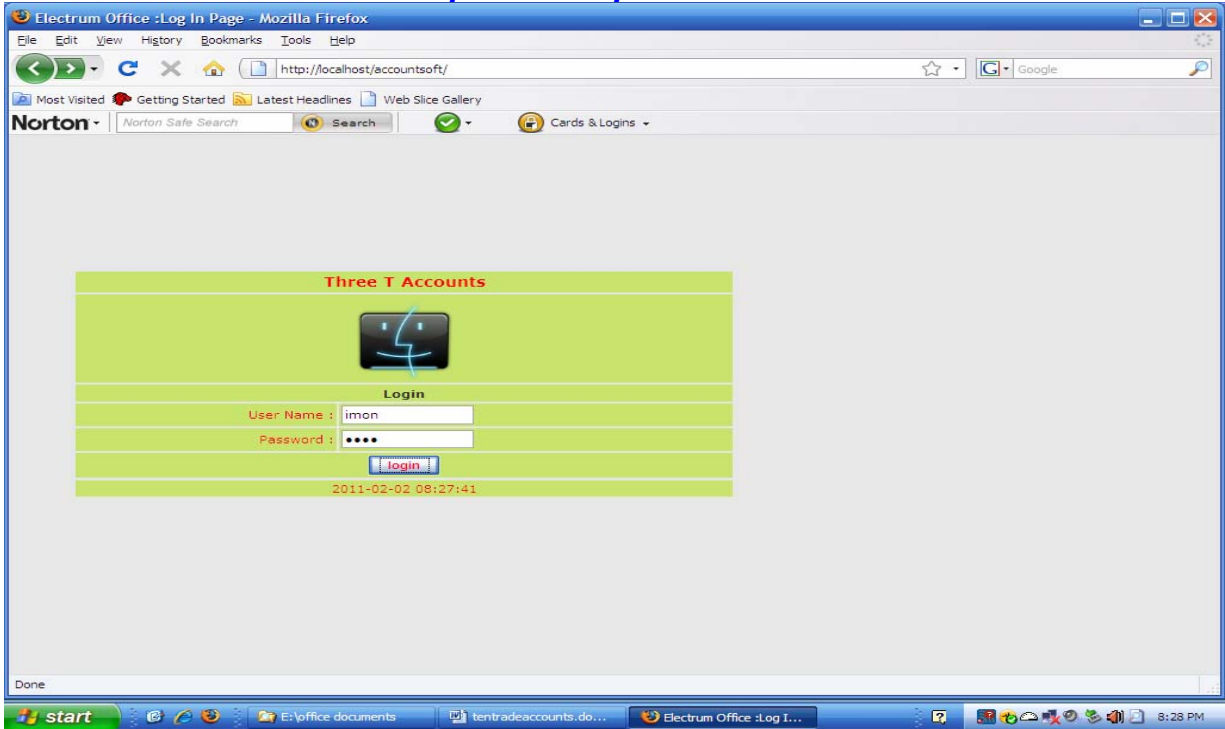

Wide Area network

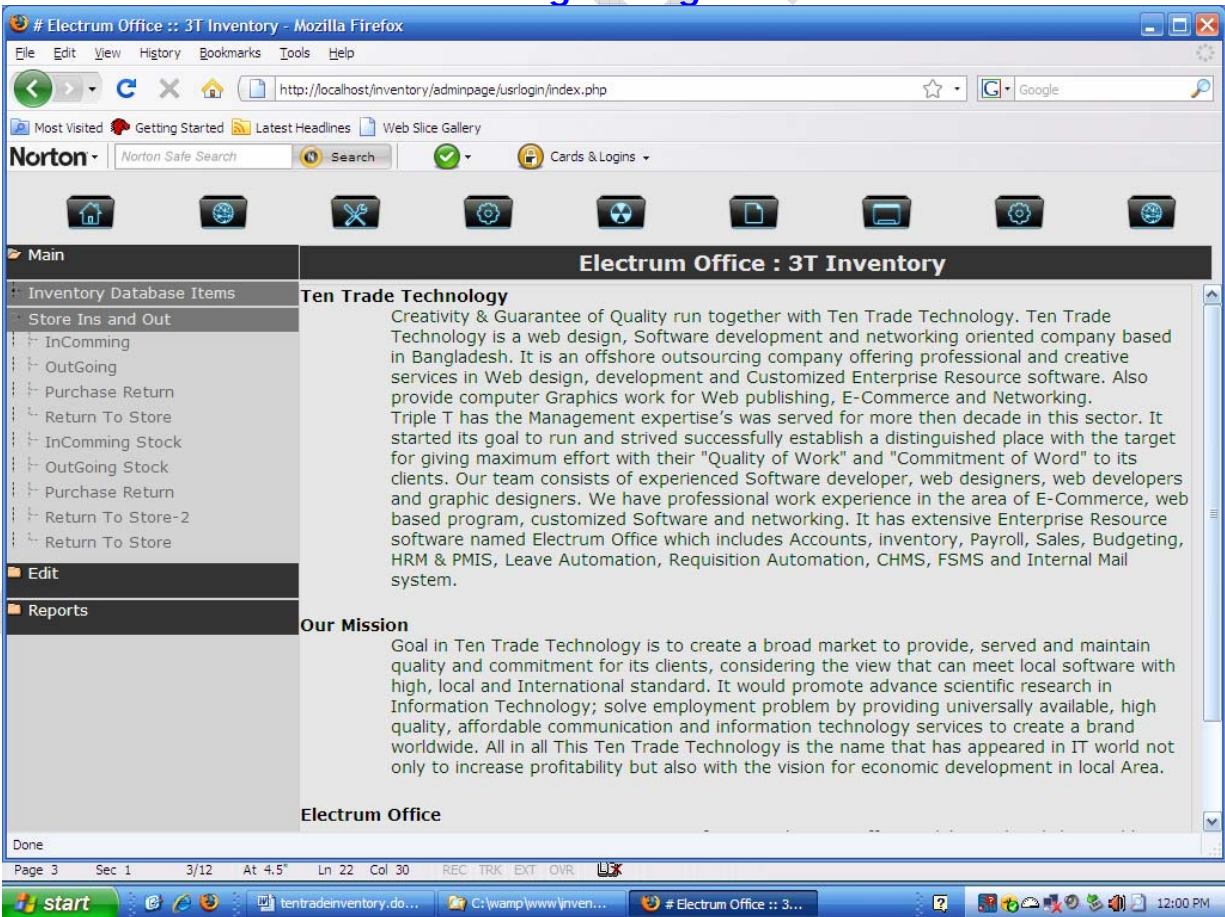

Local Area network between Departments

Report Summary

PRICE : 40000.00/-

Taka In Words: Forty Thousand Only.

Software Development & Consulting Service Agreement

Consulting Services

System analysis, Program development, & personnel Training.

Scope & services

Implementing Customize software which includes Salary, Wages Information.

Developer Responsibilities

Ten Trade Technology shall develop software to modify, customize, amend, and enhance for fulfilling the requirement of The Client.

Development Phases & Sub Phases

- a) As per conversation with The Client personnel Ten Trade Technology has designed the program
- b) Specify the limitation of software
- c) If the product doesn't support client, it should start from the beginning.
- d) Ten Trade Technology shall deliver the complete software within a week after signing the agreement.

Responsibilities

Ten Trade Technology will provide Software Documentation as tutorial with complete software and ensure proper training along with necessary documents to manage software.

Ten Trade Technology Should ensure smooth run of the Software. For any troubleshoot and any occurrence in the system of software notified by phone, Ten Trade Technology will take proper steps to solve the problem as soon as possible. Ten Trade Technology will maintain the Confidentiality and security of the system.

Terms of the Agreement

This agreement is effective as on the date it is signed by the both parties. The terms and conditions will remain in effect until Ten Trade Technology has delivered and The Client has accepted software. Ten Trade Technology will not responsible for Any damage of Software caused by hardware or power failure or Wrong data input of the client Operator. The Client Will Provide contracts for any failure caused and will notify by phone for further solutions. Ten Trade Technology has rights to contract with other company for similar works.

Software Renewal

The Client Should Pay 10,000/- per year for the renewal of the Software.

Service Agreement

The Client is to pay Taka 2000/- per month or Taka 15000/- per Year for its software maintenance. For Further modification of the software it will charge Extra.

Payment method

The Client Have to pay Ten Trade Technology 50% of its costs as advance.

Ten Trade Technology will handover products before or on delivery date and The Client will pay the rest of the amount on date.

Do not hesitate to contact with us. For Further Information contact with our dedicated personnel or call customer service.
